---

Looking for a challenging position, in the coding industry, where I will have the opportunity to grow and learn. With my background and experience in the video television industry as a Producer & Director, and my current experience as a Code Developer, I have proven track record of success in high pressure situations with quick turn arounds which I can bring to an organization.

Technical Skills

Languages: JavaScript ES6+, HTML, SQL, NoSQL, CSS3, Python, C#, .Net.
Applications: GitHub, MongoDB, MySQL, Insomnia, MongoDBCompass, Robot 3T, Visual Studio
Tools: Express, React, Node.js, Handlebars, JQuery, Bootstrap, MaterializeCSS, Materialize-UI, Mocha, Selenium, ASP.Net, .Net core, MVC, T-SQL

Experience

ProForma| August 2021 – Current
October 2022 – Current QA Automation Developer Team Lead – Leading and managing the QA Automation developer team and maintaining my previous role.
August 2021 – October 2022 Developer - Working as a developer on the QA team. Writing and maintaining automated tests using Selenium and C#. Testing the API and creating routes and services with ASP.Net.

Golf Channel | March 2014 – August 2021
Producer/Director, Live Editor, Technical Director, Production Assistant, Avid Editor
As a Live Editor - Live video editing using EVS and Dreamcatcher. As a Producer and Director -Live broadcasts for European Tour, PGA Tour, LPGA tour, and various other international tours. Managed and leading teams of 5-20 staff members.
